Women's Fire Lodge

Iskwewak Iskotew Nihkotawan **(Women's Fire Lodge)**

The Women's Fire Lodge offers short-term housing solutions for up to 18 months for Indigenous women who are leaving correctional facilities, women who are experiencing homelessness, or who face multiple barriers that put them at risk of experiencing homelessness.

The Fire Lodge has 20 renovated and furnished suites that provide a safe place to live; access to health, wellness, and life supports; an opportunity to build social connections, and to participate in recreational programming that ensures Indigenous women build skills, cultural knowledge, and the confidence to thrive, as they transition into more permanent market housing.
